INTERNET ROUTING WORKSHOP 18-22 JULY 2011, LILONGWE

The Malawi Internet Service Providers Association (MISPA) in collaboration with the Internet Society (ISOC) will run a one week advanced Internet routing training workshop at the Capital Hotel (TBC) in Lilongwe aimed at improving operating of the Malawi Internet Exchange (MIX). The workshop will have a purpose built laboratory, see <http://www.mispa.org.mw>.

PARTICIPATION: Interested ISPs and qualified Internet engineers from other organisations need to submit an application by 1200 on 11 July 2011 to be admitted to attend the workshop.

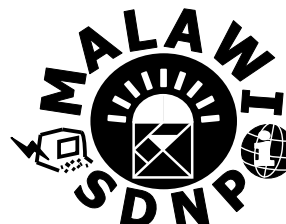

COVERAGE: This advanced hands-on workshop will cover the following:

1. Internet, TCP/IP and Routing
2. Routing Protocols
3. OSPF and BGP for ISPs
4. BGP, Attributes, Policy
5. BGP Scaling and Multi-homing
6. Dynamic Routing Laboratory
7. NOCs
8. IXP, MIX, set-up and operation

PARTICIPANTS: Eligible participants will be engineers who are responsible for routing in with a good networking background, preferably from MISPA members. Networking engineers from other organisations which would benefit from connecting to the MIX are also invited to apply. ISOC has generously offered to sponsor the workshop, however, MISPA, has agreed to require a small participant fee of MK10,000 to cover local arrangements. Participants must bring a wifi enabled laptop, must find their own transport and living expenses for the workshop possibly funded by their own companies and organisations. Participant places are limited to 20.

Applications including a completed application form and a backing letter from their ISPs or organisation should be sent to:
