INTERNET EXCHANGE ROUTING WORKSHOP

17-21 AUGUST 2009, BLANTYRE

The Malawi Internet Service Providers Association (MISPA) in collaboration with the Internet Society (ISOC) will run a one week advanced Internet Exchange Point (IXP) routing training workshop at the College of Medicine in Blantyre where MISPA is building and operating the Malawi Internet Exchange (MIX). The workshop will have a purpose built laboratory.

PARTICIPATION: Interested ISPs and qualified Internet engineers need to submit an application by 1200 on 14 August 2009 to be admitted to attend the workshop.

COVERAGE: This advanced hands-on workshop will cover the following:

1. Internet, TCP/IP and Routing
2. Routing Protocols
3. OSPF and BGP for ISPs
4. BGP, Attributes, Policy
5. BGP Scaling and Multi-homing
6. IXP, MIX, set-up and operation
7. BGP Routing Laboratory
8. IXP Laboratory Exercises

PARTICIPANTS: Eligible participants will be engineers who are responsible for routing in Internet Service Providers (ISP) with a good networking background. Networking engineers from other organisations which would benefit from connecting to the MIX are also invited to apply. The Internet Society will sponsor all workshop tuition and materials including lunch and refreshments. Participants must bring a wifi enabled laptop, must find their own transport and living expenses for the workshop possibly funded by their own companies and organisations. There are 20 participant places.

Applications including a backing letter from their ISPs or organisation should be sent to:
