**INVITATION TO ADVANCED ROUTING TRAINING WORKSHOP,
17-23 JULY 2011, CROSSROADS HOTEL, LILONGWE, MALAWI**

The Malawi Internet Service Providers Association (MISPA) in collaboration with the Internet Society (ISOC) is pleased to formally invite you to the one week advanced Internet routing training workshop at the Crossroads Hotel in Lilongwe from 18-22 July 2011.

The workshop will cover dynamic routing aimed at building and automating large infrastructure well connected multi-player Internet networks in Malawi and beyond. MISPA and ISOC are running the workshop following the success and experience gained in running the first such workshop in Malawi in August 2009 in Blantyre details of which are available on the MISPA website at <http://www.mispa.org.mw>.

This is an advanced routing workshop with a laboratory. You are, therefore, expected to have adequate background on Internet protocols, networks and basic IP routing. You are required to bring a wireless enabled laptop to be used in the laboratory sessions and exercises.

You are required to make your own travel and accommodation arrangements. Lunch and refreshments will be served during the workshop.

You will be required to pay MK10,000 participation fee to the Malawi ISP Association (MISPA) when you register for the workshop. Further details, including those on the MISPA meeting and minutes of 14 June 2011, are available on the MISPA website.

We look forward to your active participation at the workshop and in building efficient automated Internet connections and services in Malawi and beyond.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Paulos Nyirenda".

**Dr Paulos Nyirenda
MISPA Chairperson**
